IRONING SYSTEMS WITH CONTINUOUS REFILLING

Stiro Meglio 3D PROFESSIONAL STEAM SYSTEM

PRO 2100

NO MORE CALCIUM DEPOSIT

The new regenerating resins (placed under the tank) reduce calcium problems drastically . The resins can be easily regenerated with a solution of citric acid.

COMPLETE CONTROL PANEL WITH TURBO FUNCTION

Separate switches for iron and boiler, steam regulation knob to adjust steam emission to the different fabrics and turbo button to remove all creases. Steam ready, add water and regenerate resins indicator lights..

TOTAL CONTROL

The system automatically shuts off after 1 hour of inutilization, reducing energy consumption and increasing safety.

IRONING SYSTEMS

PRO 2100

- Continuous refilling for an unlimited autonomy.
- Ready in only 2 minutes.
- Steam production: 150 g/min.
- Turbo steam: 180g
- 5 bar pressure in boiler for professional results
- Regenerating resins to reduce calcium deposits considerably
- Double material boiler for a longer life cycle of the system and possibility to use tap water.
- Safe shut-off of the system after 1 hour of inutilization
- 1.1 litre removable water tank
- Separate switches for iron and boiler
- Steam regulation knob to regulate the steam emission and turbo button to remove all creases
- Steam ready, add water and regenerate resins indicator lights
- Vertical steam emission to iron curtains, coats, etc..
- Exclusive button to obtain and keep a constant steam production
- “Iron ready” indicator light
- Vertical rest position of the iron
- Safety thermostat
- Possibility to wrap the power cord for easy storage and transportation
- Professional iron with an aluminum soleplate.
- Steam holes concentrated in the front of the iron guarantee a perfect drying out of the fabrics
- The system has a pressure stabilizer to maintain constant jet of steam.
- Trigger emission buttons are safely held by both left or right-hand users.
- Adjustable thermostat
- Power 2200W

TECHNICAL DATA

Iron dimensions (wxdxh)	mm	255x115x145
Boiler dimensions (wxdxh)	mm	453x219x320
Weight	kg	5,8
Maximum input power	W	2200
Boiler input power	W	1400
Iron input power	W	800
Tank capacity	cc	1100
Rated voltage/Frequency	V~ Hz	220/240~ 50/60
Iron		Professional
Soleplate		Aluminium
